Experience

Frontend Developer at Megaphone – Richmond, Vic   April 2021 – Present

HTML| CSS | JavaScript | Shopify | Wordpress | Liquid | jQuery | PHP

- Exceptional problem-solving when roadblocks presented themselves, also understanding when to ask for assistance
- Effective multitasking when managing multiple sprints, ensuring projects were completed before their deadlines
- Positively shaped users experiences through effective UI/UX design and development
- Actively participated in daily stand-ups, sharing ideas, identifying and resolving potential roadblocks
- Collaborated with account managers and designers, ensuring project's scope, design and deadlines were feasible
- Successfully oversaw and completed a major project that presented numerous complexities. Using custom code to interact with the app used to build the clients website, working around its limitations to create custom features and functionalities, all whilst avoiding potential conflicts.

Projects

It's a vibe
HTML| SASS| Javascript | Spotify API | Netlify
Makes you a playlist based on your mood

Website | Source Code
